

- Mahati commenced its services to power sector by first repairing transformers in 1967.
- Since then we have come a long way but have continued with our Repairs section.
- We repair, refurbish, overhaul, replace winding of Transformers upto 400 MVA, 220 KV class.
- Also Furnace Transformers with critical design are repaired both at Mahati works and onsite.
- Recently we have successfully repaired 9 MVA, submerged Arc Furnace transformer in Georgia (Black Sea) at site under challenging working conditions.
- Also many times we provide standby transformers if the rating of standby transformers suits the customers rating.
